ABOUT US

A Stimulant by Sarnies was conceptualised by the founder of Sarnies in Singapore, Benjamin Lee. Sarnies, slang for sandwich, serves up hearty Aussie style grub throughout the day, along with its signature coffee. A sandwich and a cup of coffee goes hand in hand, and it was key to maintain the consistency and quality of coffee served in his flagship cafe.

OUR ROASTERY

To maintain the consistency and quality of coffee served in his flagship cafe, Ben decided that bringing coffee roasting in-house was one of the best ways to do that, and eventually extended the coffee roasting into the full edged coffee arm of Sarnies that it is today.

Focusing on the process from seed to cup, the A Stimulant by Sarnies team ensures every single roast is nothing short of perfect so that everyone can enjoy the best quality coffee, wherever they may be.

Our team of dedicated roasters invest all their time perfecting various roast profiles. Our beans are like old friends, we understand them. Translated into a cappuccino or filtered through a French Press, we get it.

THE SPACE

Sarnies is a pumpin' little café located in the bustling CBD. Here at Sarnies, we are passionate about our products and their quality. Grass fed beef; chicken free from hormones and antibiotics; bacon cured in-house - the attention paid to the produce guarantees a fantastic meal every time.

While 'Sarnies' may be slang for sandwich, the cafe serves up hearty breakfasts; massive salads, scrumptious brunches; homemade bakery treats which all can be accompanied with a damn good cuppa.
